Biometric Data Consent

Tollbar MAT takes advantage of fingerprint recognition tools for quick and easy identification of students for cashless catering and other services. Biometric data is collected by taking measurements of the print pattern but does not capture a complete image. The data collected is heavily abstracted and it is virtually impossible to reconstruct the original fingerprint from the data.

The MAT requires the consent of a Parent / Carer before we may collect and process biometric data of a student. A suitable alternative will be provided where consent is denied.

Please complete and return the form below indicating the preferred method of accessing school systems in the Academy.

Biometric Consent Form

Academy Name Tollbar Academy

Student Name _____ Tutor Group _____

Please tick **one** of the two boxes below:

☐ I hereby give consent for the collection and processing of biometric data for the student detailed above for use with school systems.

☐ I do not give consent and I would like the student detailed above to be provided with a suitable alternative instead of using their fingerprint.

Parent / Carer Name _____

Signature _____

Date _____

Please note that even if a parent has given consent to the collection and processing of biometric data the MAT will be obliged to provide a suitable alternative in the following circumstances:

- The student objects to the collection of their fingerprint,
- The student later objects to the use of their fingerprint as a method of identification,
- An adult with parental responsibility for the student other than the signatory above writes to us to object.

Please return this form to Head of House by Friday 11 May 2018
